# The Boring Lab

milestone

Monitor and Report on the Health of Your Video Security System

Minimize lost video and stay ahead of camera and storage issues with The Boring Toolbox, the ultimate management tool for **Milestone XProtect®**.

Streamline Tedious Processes With Bulk Automation

Our bulk automation streamline important, yet tedious, processes like updating camera passwords, device names, settings, and more, making you **97%** more efficient!

Bulk Update Your Camera Passwords

Regular system-wide password updates are necessary to minimize your system vulnerabilities. The Boring Toolbox cuts this process down from days to minutes.

BEFORE BORING	AFTER BORING
67 HOURS	**20** MINUTES

Run And Schedule Reports With One Click

Our **one-click and scheduled reports** make it easy to share information with your team, stay on top of compliance, and keep track of your system.

Run reports to monitor...

- Server Storage
- System Configuration
- Camera Image Quality
- Anomalies
- Retention Time

Monitor System Health At-a-Glance

Our **health monitoring tools** are easy to access and easy to understand. With actionable alerts and comprehensive dashboards accessible from your browser or Slack, you can start troubleshooting issues more quickly and prevent future issues more effectively.
